1. **click** - This event is triggered when a user clicks on an element, such as a button or link.
2. **mouseover** - This event is triggered when a user's mouse pointer moves over an element.
3. **mouseout** - This event is triggered when a user's mouse pointer moves off of an element.
4. **keydown** - This event is triggered when a user presses a key on their keyboard.
5. **keyup** - This event is triggered when a user releases a key on their keyboard.
6. **submit** - This event is triggered when a user submits a form.
7. **load** - This event is triggered when a web page or image finishes loading.
8. **resize** - This event is triggered when a user resizes their browser window.
9. **scroll** - This event is triggered when a user scrolls through a web page.
10. **focus** - This event is triggered when an element receives focus, such as when a user clicks on a text input field.
11. **blur** - This event is triggered when an element loses focus, such as when a user clicks away from a text input field.
12. **change** - This event is triggered when the value of an element, such as a dropdown menu or checkbox, is changed.
